

Karie™

your personal health companion

Convenient, simple, and intelligent, Karie is your personal health companion - organizing, scheduling, and delivering your pills with easy one-button control.

Karie doesn't require you to manually load pills, and can hold two months worth of supplies, helping you maintain consistent health habits. Each prescription is packaged by the dose at a pharmacy and loaded into a Karie cartridge, ready for effortless use.

Karie ensures daily peace of mind and empowers greater independence through its use.

Organizes

After receiving your medication in a cartridge from your pharmacist, place it in the back of Karie.

Schedules

Karie automatically loads your medication schedule when you put in your cartridge.

Reminds

When it is time for your next dose, Karie will alert you. Press the button on the front of Karie.

Delivers

Karie will deliver the medication that you need right on time, and will remain on standby until it's time for your next dose.

Monitors

If you forget to take your medication, a notification can be sent to a family member or caregiver.

Karie will be released in early 2018, to be notified of its release sign up at www.kariehealth.com
